INST 327 – Database Design and Modeling

Final Project Submission – See ELMS for Due Date

Submission Requirements

Ensure that you fully understand the submission instructions; if you have any questions please ask the instructor as soon as possible. Your team will lose points if you do not follow all of these instructions.

The proposal is due **by 11:59 PM on the due date stated above**. <u>Due to being too close to the end of the grading window, NO LATE SUBMISSION IS ALLOWED ON THIS PART OF THE PROJECT. The submissions will close at the time of the deadline.</u>

The report must be submitted through the appropriate link on Canvas. Please do not email your proposal to the instructors. Email submissions will not be accepted. If you encounter problems finding or using the link, contact the instructors right away.

Each team must make only one submission.

Once you are done with all of the parts of your project including the report, name your files according to the following scheme:

team_yourTeamNumber_yourDatabaseName_submissionLabel.fileExtension

There are four pieces to your submission:
1. Submit your ERD via a workbench .mwb file
2. Submit a backup of your database (including: tables, sample data, views) as an .sql file
3. Submit your queries via .sql file (the queries, in a text file, in addition to including at least five views in your database.)
4. Submit your written report as a .doc or .pdf file

for example:

1. *team_2_library_logical.mwb*
2. *team_2_library_backup.sql*
3. *team_2_library_queries.txt*
4. *team_2_library_report.docx*
